

**A01-0042 6-30-03**

*Application Form*

Fairchild Semiconductor Corporation

Name of facility\*

Same

Name of parent company (if any)

333 Western Avenue

Street address

Street address (continued)

South Portland, Maine 04106

City/State/Zip code

Give us information about your contact person for the National Environmental Performance Track Program.

Name Mr./Mrs./Ms./Dr. William Goldschmidt

Title Director, Site Support Services

Phone (207) 775-8505

Fax (207) 761-3223

E-mail bgoldsch@fairchildsemi.com

Facility/Company Website www.fairchildsemi.com

\* If you are applying for multiple facilities, you must call 1-888-339-PTRK(7875)

***Why do we need this information?***

EPA needs background information on your facility to evaluate your application.

***What do you need to do?***

- ♦ Provide background information on your facility.
- ♦ Identify your environmental requirements.

# Section A

*Tell us about your facility.*

**1** What do you do or make at your facility?

Fairchild Semiconductor Corporation produces building block semiconductors for multiple end markets. Fairchild products are designed into a wide variety of electronic systems serving the computing, internet hardware, telecommunications, consumer, industrial and automotive markets.

**2** List the North American Industrial Classification System (NAICS) codes that you use to classify business at your facility.

NAICS  
33   44   13

**3** Does your company meet the Small Business Administration definition of a small business for your sector?

☐ Yes      ☒ No

**4** How many employees (full-time equivalents) currently work at your facility? If you checked "Yes" in question 3 and have fewer than 50 employees at your facility, then you are considered a "small facility" by the Performance Track Program.

- ☐ Fewer than 50  
☐ 50-99  
☐ 100-499  
☒ 500-1,000  
☐ More than 1,000

**5** Complete the Environmental Requirements Checklist on pages 32-38 of the instructions and enclose it with your application.

## Section A, continued

- 6 Optional: Is there anything else you would like to tell us about your facility? Do you participate in other voluntary programs at the local, tribal, State, or Federal level?

Fairchild Semiconductor is a leading global supplier of high performance products for multiple end markets. With a focus on developing leading edge power and interface solutions to enable the electronics of today and tomorrow, Fairchild's components are used in computing, communications, consumer, industrial and automotive applications. Fairchild's 10,000 employees design, manufacture and market power, analog and mixed signal, interface, logic, and optoelectronics products from its headquarters in South Portland, Maine and numerous other locations around the world including the manufacturing plant also located in South Portland.

Fairchild was one of the first four companies to join in partnership with the Maine Department of Environmental Protection in their Smart Production STEP UP Program. The STEP Up Program is designed to explore new ways of protecting the environment that go beyond compliance.

Fairchild received the 2002 Governor's Award for Environmental Excellence for its Reduction of Toxic Chemicals Released to the environment.

Fairchild was registered under the ISO 14001 Standard as a result of a third party audit by Underwriters Laboratories, Inc. (UL) in 2002 and has since successfully passed two subsequent surveillance audits also conducted by UL.

### Why do we need this information?

Facilities need to have an operating Environmental Management System (EMS) that meets certain requirements.

### What do you need to do?

- ♦ Confirm that your EMS meets the Performance Track requirements.
- ♦ Tell us if you have completed a self-assessment or have had a third-party assessment of your EMS.

# Section B

*Tell us about your EMS.*

Read the EMS requirements on page 9-12 of instructions.  
Tell us if your EMS meets these requirements for:

1 Environmental policy \_\_\_\_\_ ☒ Yes ☐ No

2 Planning \_\_\_\_\_ ☒ Yes ☐ No

3 Implementing and operation \_\_\_\_\_ ☒ Yes ☐ No

4 Checking and corrective action \_\_\_\_\_ ☒ Yes ☐ No

5 Management review \_\_\_\_\_ ☒ Yes ☐ No

6 Have you done a comprehensive review of all activities conducted at your facility that could impact the environment? (i.e., have you done an aspect analysis?) ☒ Yes ☐ No

7 Have you classified your aspects based on their potential harm to the environment, on community concerns, and/or on other objective factors? (i.e., have you determined your significant aspects?) ☒ Yes ☐ No

8 When did you last update your aspect analysis? (mo/yr) March 2003

9 Have you completed at least one EMS cycle (plan-do-check-act)? ☒ Yes ☐ No

10 Did this cycle include both an EMS and a compliance audit? ☒ Yes ☐ No

11 Have you completed an objective self-assessment or third-party assessment of your EMS? ☒ Yes ☐ No

If yes, what method of EMS assessment did you use?

Self-assessment

Third-party assessment

☐ GEMI

☒ ISO 14001 Certification

☐ CEMP

☐ Other

☐ Other

### ***Why do we need this information?***

Facilities need to show that they are committed to improving their environmental performance. This means that you can describe past achievements and will make future commitments.

### ***What do you need to do?***

Refer to the Environmental Performance Table in the instructions to answer questions 1 and 2.

# *Section C*

*Tell us about your past achievements and future commitments.*

**Part 1** You must report past achievements for at least two environmental aspects, and you must choose these aspects from the Environmental Performance Table on pages 29-31 of the instructions. Please quantify each of your aspects using the units listed for that aspect in the Environmental PTrack Information Hotline at 1-888-339-PTRK.

**Note to small facilities:** If you are a small facility, you must report past achievements for only one environmental aspect.

### ***First achievement***

<b>1</b> What aspect have you selected from the Table on page 29-31?	Total Water Use	
<b>2</b> What units are you using to quantify this aspect? (See Table, page 29-31.)	Gallons	
	PAST	CURRENT
<b>3</b> List the past annual quantity of the aspect (from two years ago) and the current annual quantity of the aspect (from the most recent year for which you have data).	195,846,464	125,774,704
<b>4</b> What are the years for which you are reporting these quantities?	2000	2002
<b>5</b> Estimate your past normalizing factor (Page 18 of the Instructions will help you calculate this.)	1.43	1.0
<b>6</b> What is your normalizing factor based on (e.g., production, employment)?	Production - Mask Moves (the number of layers applied to a wafer x the number of wafer produced)	
<b>7</b> You reported an improvement in the quantity of the aspect in Question 3. How did you achieve this improvement?	By better utilization of wastewater from the water deionization process for other applications on site. This wastewater was used as makeup for air emission scrubbers and cooling towers. The use of this wastewater reduced the need for additional city water in the applications.	

## Section C, continued

### Second achievement

1 What aspect have you selected from the Table on page 29-31?	Hazardous Materials Use	
2 What units are you using to quantify this aspect? (See Table, page 29-31.)	lbs.	
	PAST	CURRENT
3 List the past annual quantity of the aspect (from two years ago) and the current annual quantity of the aspect (from the most recent year for which you have data).	3,636,590	2,753,130
4 What are the years for which you are reporting these quantities?	2000	2002
5 Estimate your past normalizing factor (Page 18 of the Instructions will help you calculate this.)	1.43	1.0
6 What is your normalizing factor based on (e.g., production, employment)?	Production - Mask Moves (the number of layers applied to a wafer x number of wafer produced)	
7 You reported an improvement in the quantity of the aspect in Question 3. How did you achieve this improvement?	The reductions in chemical usage were the result of; more effective use of chemicals used in the manufacturing process; the replacement of a extremely hazardous chemical with a less hazardous one and at a lower use rate; and an installation of equipment that eliminated the need for a chemical in this particular part of the process.	

**Part 2** You must make future commitments for at least four environmental aspects, and you must choose these aspects from the Environmental Performance Table on pages 29-31 of the Instructions. The aspects you select for your future commitments should be related to the objectives and targets in your EMS. Where possible, they also should be identified as having a significant environmental impact in your EMS. No more than two of your aspects can be from the same environmental category. If you're not sure how your objectives and targets fit into our aspects or whether your aspects are significant, call the PTrack Information Hotline at 1-888-339-PTRK.

Once you have chosen your four environmental aspects, then fill in all the necessary information for these aspects in the tables on pages 7-10 of this form. Please quantify each of your aspects using the units listed for that aspect in the Environmental Performance Table. Each table that you must fill in corresponds to one of the environmental aspects you have chosen.

We will assume that your performance commitments are based on a constant production or employment level. If you would like to base your commitment on changing production or employment, please fill out optional questions 6a and 6b.

**Note to small facilities:** If you are a small facility, you must report future commitments for only two environmental aspects.

## Section C, continued

### First commitment

<b>1</b>	What aspect have you selected from the Table on pages 29-31?	Emissions of Greenhouse Gases	
<b>2</b>	What units are you using to quantify this aspect?	lbs.	
<b>3a</b>	Is this aspect considered significant in your EMS?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
<b>3b</b>	If no, please explain why you believe this aspect should be included as a performance commitment.		
		CURRENT	FUTURE
<b>4</b>	List the current annual quantity of the aspect and the annual quantity you are committing to achieve by the end of the third year of your participation in Performance Track.	8936	6818
<b>5</b>	What are the years for which you are reporting these quantities?	2002	2005
<b>6a</b>	(Optional) What is your future normalizing factor. (Page 21 of the Instructions will help you calculate this.)	1.0	1.09
<b>6b</b>	(Optional) What is your normalizing factor based on (e.g., production, employment)?	Production - Mask Moves (the number of layers applied to a wafer x the number of wafers produced)	
<b>7</b>	You committed to an improvement in the quantity of this aspect in Question 4. How do you plan to achieve this improvement?	By reducing the amount of greenhouse gases emitted from the facility through end of pipe abatement using a thermal destruction device with a wet scrubber to destroy unused gases discharged from the process and remove the products of the thermal destruction process from the exhausted air. The products from the thermal destruction/wet scrubber process are then processed through the pretreatment system prior to discharge to the POTW.	
<b>8a</b>	Are you subject to Federal, State, tribal, or local regulatory requirements for this aspect?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	
<b>8b</b>	If yes, please list those requirements, including the quantitative limits and compliance deadlines that apply to you. Explain how your commitment exceeds requirements.	The Semiconductor Industry Association (SIA), of which Fairchild is part of, signed a Memorandum of Understanding (MOU) with the US EPA in March of 2001 in which SIA has agreed' on behalf of the companies agreeing to the MOU, to reduce the emissions of greenhouse gases to 10% below the level on emissions from the SIA companies in 1995.	

## Section C, continued

### Second commitment

<b>1</b> What aspect have you selected from the Table on pages 29-31?	Discharges of Total Suspended Solids to Water	
<b>2</b> What units are you using to quantify this aspect?	lbs.	
<b>3a</b> Is this aspect considered significant in your EMS?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
<b>3b</b> If no, please explain why you believe this aspect should be included as a performance commitment.		
	CURRENT	FUTURE
<b>4</b> List the current annual quantity of the aspect and the annual quantity you are committing to achieve by the end of the third year of your participation in Performance Track.	77	23
<b>5</b> What are the years for which you are reporting these quantities?	2002	2005
<b>6a</b> (Optional) What is your future normalizing factor. (Page 21 of the Instructions will help you calculate this.)	1.0	1.0
<b>6b</b> (Optional) What is your normalizing factor based on (e.g., production, employment)?	Based on yearly typical precipitation of 42 inches for the area and control is not variable with production.	
<b>7</b> You committed to an improvement in the quantity of this aspect in Question 4. How do you plan to achieve this improvement?	By installing a storm water control system (centrifugal separator) that will more effectively settle out suspended solids (TSS) that would be carried off site with storm water runoff. Baseline quantity of TSS used are based on data from 1992 through 1995 and reductions are based on equipment suppliers data.	
<b>8a</b> Are you subject to Federal, State, tribal, or local regulatory requirements for this aspect?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	
<b>8b</b> If yes, please list those requirements, including the quantitative limits and compliance deadlines that apply to you. Explain how your commitment exceeds requirements.	While Fairchild is not under any requirement to improve the storm water quality leaving the site, it will be working with the Cumberland County Soil and Water Conservation District to identify areas within the watershed that need improvement and use its experience with on site storm water control to help others improve the quality of their storm water discharge. Fairchild has a current Storm Water Pollution Prevention Plan (SWPPP) and this project is above the requirements and scope of the current SWPPP.	

## Section C, continued

### Third commitment

<b>1</b> What aspect have you selected from the Table on pages 29-31?	Emissions of Toxics	
<b>2</b> What units are you using to quantify this aspect?	lbs.	
<b>3a</b> Is this aspect considered significant in your EMS?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
<b>3b</b> If no, please explain why you believe this aspect should be included as a performance commitment.		
	CURRENT	FUTURE
<b>4</b> List the current annual quantity of the aspect and the annual quantity you are committing to achieve by the end of the third year of your participation in Performance Track.	1.82	0.08
<b>5</b> What are the years for which you are reporting these quantities?	2002	2005
<b>6a</b> (Optional) What is your future normalizing factor. (Page 21 of the Instructions will help you calculate this.)	1.0	1.0
<b>6b</b> (Optional) What is your normalizing factor based on (e.g., production, employment)?	Normalizing factor not applicable in this case since absorbers will be connected to equipment and will continue to operate and absorb unused gas continuously regardless of production volume.	
<b>7</b> You committed to an improvement in the quantity of this aspect in Question 4. How do you plan to achieve this improvement?	By installing abatement equipment (Chemical Absorber) at end of pipe to reduce emissions of arsine, phosphine and diborane by more than 96% of current levels. The absorbers, when exhausted, will be shipped off site and will properly be disposed of as a hazardous waste	
<b>8a</b> Are you subject to Federal, State, tribal, or local regulatory requirements for this aspect?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	
<b>8b</b> If yes, please list those requirements, including the quantitative limits and compliance deadlines that apply to you. Explain how your commitment exceeds requirements.	Emissions volumes are below any environmental regulatory thresholds	

## Section C, continued

### Fourth commitment

<b>1</b> What aspect have you selected from the Table on pages 29-31?	Hazardous Solid Waste	
<b>2</b> What units are you using to quantify this aspect?	lbs.	
<b>3a</b> Is this aspect considered significant in your EMS?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
<b>3b</b> If no, please explain why you believe this aspect should be included as a performance commitment.		
	CURRENT	FUTURE
<b>4</b> List the current annual quantity of the aspect and the annual quantity you are committing to achieve by the end of the third year of your participation in Performance Track.	1,090,751	491,622
<b>5</b> What are the years for which you are reporting these quantities?	2002	2005
<b>6a</b> (Optional) What is your future normalizing factor. (Page 21 of the Instructions will help you calculate this.)	1.0	1.09
<b>6b</b> (Optional) What is your normalizing factor based on (e.g., production, employment)?	Production - Mask Moves (the number of layers applied to a wafer x the number of wafers produced).	
<b>7</b> You committed to an improvement in the quantity of this aspect in Question 4. How do you plan to achieve this improvement?	By installing a process that will precipitate 95% of fluoride compounds from a wastewater stream that is now considered hazardous waste due to corrosivity and must be disposed of as a hazardous waste. The material precipitated from the wastewater will be considered non-hazardous and the wastewater will then be able to pass through our existing pre-treatment system and meet our current POTW permit requirements.	
<b>8a</b> Are you subject to Federal, State, tribal, or local regulatory requirements for this aspect?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
<b>8b</b> If yes, please list those requirements, including the quantitative limits and compliance deadlines that apply to you. Explain how your commitment exceeds requirements.	Because the South Portland POTW was unable to meet their discharge requirements, they have required Fairchild to remove a significant portion of the wastewater containing fluorides that was being discharged to the POTW in order for the POTW to again meet their discharge requirements. Wastewater containing fluorides is presently collected and transported off-site for treatment (fluoride removal) and disposal.	

***Why do we need this information?***

Facilities need to demonstrate their commitment to public outreach and performance reporting. You should have appropriate mechanisms in place to identify community concerns, to communicate with the public, and to provide information on your environmental performance.

***What do you need to do?***

- ♦ Describe your approach to public outreach.
- ♦ List three references who are familiar with your facility.

# Section D

*Tell us about your public outreach and reporting.*

**1** How do you identify and respond to community concerns?

When inquiries are made to Fairchild from an outside source for specific information concerning environmental issues, the person receiving will route the inquiry to the Environmental Manager for a response. Depending upon the depth of the inquiry, the Environmental Manager will respond directly to the person making the inquiry or will obtain the assistance of the Corporate Director of Communications.

**2** How do you inform community members of important matters that affect them?

Fairchild has formed a Citizen Advisory Committee made up of individuals in the community from a variety of interests. The committee meets at least biannually to review Fairchild's progress toward meeting environmental goals and to discuss other issues that might affect the community.

**3** How will you make the Performance Track Annual Performance Report available to the public?

- ☒ Website [www.fairchildsemi.com](http://www.fairchildsemi.com)
- ☐ Newspaper
- ☐ Open Houses
- ☐ Other

## Section D, continued

- 4 Are there any ongoing citizen suits against your facility? ☐ Yes ☒ No

If yes, describe briefly in the right-hand column.

- 5 List references below

	Organization	Name	Phone number
<i>Representative of a Community/ Citizen Group</i>	Friends of Casco Bay	Joe Payne	(207) 799-8574
<i>State/tribal/local regulator</i>	Maine DEP	Craig Ten Broeck	(207) 287-7828
<i>Other community/local reference (e.g., emergency management official or business associate)</i>	City of South Portland	Patrick Cloutier	(207) 767-7676

# Section E

## Application and Participation Statement.

On behalf of Fairchild Semiconductor Corporation  
[my facility],

I certify that

I have read and agree to the terms and conditions for Application and Participation in the National Environmental Performance Track, as specified in the *National Environmental Performance Track Program Guide* and in the *Application Instructions*;

- I have personally examined and am familiar with the information contained in this Application, including the Environmental Requirements Checklist. The information contained in this Application is, to the best of my knowledge and based on reasonable inquiry, true, accurate, and complete, and I have no reason to believe the facility would not meet all program requirements;
- My facility has an environmental management system (EMS), as defined in the Performance Track EMS requirements, including systems to maintain compliance with all applicable Federal, State, tribal, and local environmental requirements in place at the facility, and the EMS will be maintained for the duration of the facility's participation in the program;
- My facility has conducted an objective assessment of its compliance with all Federal, State, tribal, and local environmental requirements, and the facility has corrected all identified instances of potential or actual noncompliance;
- Based on the foregoing compliance assessment and subsequent corrective actions (if any were necessary), my facility is, to the best of my knowledge and based on reasonable inquiry, currently in compliance with applicable Federal, State, tribal, and local environmental requirements.

I agree that EPA's decision whether to accept participants into or remove them from the National Environmental Performance Track is wholly discretionary, and I waive any right that may exist under any law to challenge EPA's acceptance or removal decision.

I am the senior facility manager and fully authorized to execute this statement on behalf of the corporation or other legal entity whose facility is applying to this program.

Signature/Date	_____
Printed Name/Title	<u>Mr./Mrs./Ms./Dr. Douglas Wilson, Managing Director</u>
Phone Number/E-mail	<u>(207) 775-4522 / dougw@fairchildsemi.com</u>
Facility Name	<u>Fairchild Semiconductor</u>
Facility Street Address	<u>333 Western Avenue</u>
City/State/Zip Code	<u>South Portland, Maine 04106</u>

# Environmental Requirements Checklist

Use the Environmental Requirements Checklist to answer Question 5 in *Section A, Tell us about your facility*. This Checklist will help you identify the *major* Federal, State, tribal, and local environmental requirements that apply at your facility, but it is not an exhaustive list of all environmental requirements that may be applicable at your facility.

Fill in your facility information below and enclose the completed Checklist with your application.

## Air Pollution Regulations

*Check all that apply*

- ☒ 1. National Emission Standards for Hazardous Air Pollutants (40 CFR 61)
- ☒ 2. Permits and Registration of Air Pollution Sources
- ☒ 3. General Emission Standards, Prohibitions, and Restrictions
- ☐ 4. Control of Incinerators
- ☒ 5. Process Industry Emission Standards
- ☒ 6. Control of Fuel Burning Equipment
- ☒ 7. Control of VOCs
- ☒ 8. Sampling, Testing, and Reporting
- ☒ 9. Visible Emissions Standards
- ☒ 10. Control of Fugitive Dust
- ☒ 11. Toxic Air Pollutants Control
- ☐ 12. Vehicle Emissions Inspections and Testing

*Other (you must list these if applicable)*

- ☒ 13. Federal, State, tribal, or local regulations not listed above.  
Maine Air Quality Regulations
- ☒ 14. ID Numbers (specify whether State or Federal).  
A-370-71-B-T/R (State)

## Hazardous Waste Management Regulations

Check all that apply.

- ☒ 1. Identification and listing of hazardous waste (40 CFR 261)
  - ☒ - Characteristic waste
  - ☒ - Listed waste
- ☒ 2. Standards Applicable to Generators of Hazardous Waste (40 CFR 262)
  - ☒ - Manifesting
  - ☒ - Pre-transport requirements
  - ☒ - Record keeping/reporting
- ☐ 3. Standards Applicable to Transporters of Hazardous Waste (40 CFR 263)
  - ☐ - Transfer facility requirements
  - ☐ - Manifest system and record-keeping
  - ☐ - Hazardous waste discharges
- ☐ 4. Standards for Owners and Operators of TSD Facilities (40 CFR 264)
  - ☐ - General facility standards
  - ☐ - Preparedness and prevention
  - ☐ - Contingency plan and emergency procedures
  - ☐ - Manifest system, record-keeping, and reporting
  - ☐ - Groundwater protection
  - ☐ - Financial requirements
  - ☐ - Use and management of containers
  - ☐ - Tanks
  - ☐ - Waste piles
  - ☐ - Land treatment
  - ☐ - Incinerators
- ☐ 5. Interim Standards for TSD Owners and Operators (40 CFR 265)
- ☐ 6. Interim Standards for Owners and Operators of New Hazardous Waste Land Disposal Facilities (40 CFR 267)
- ☐ 7. Administered Permit Program (Part B) (40 CFR 270)

Other (you must list these if applicable)

- ☒ 8. Federal, State, tribal, or local regulations not listed above  
Maine Hazardous Waste Management Rules
- ☐ 9. ID Numbers (specify whether State or Federal).  
ME5000001313 (Federal)

## Hazardous Materials Management

*Check all that apply.*

- ☒ 1. Control of Pollution by Oil and other Hazardous Substances (33 CFR 153)
- ☒ 2. Designation of Reportable Quantities and Notification of Hazardous Materials Spill (40 CFR 302)
- ☒ 3. Hazardous Materials Transportation Regulations (49 CFR 172-173)
- ☒ 4. Worker Right-to-Know Regulations (29 CFR 1910.1200)
- ☒ 5. Community Right-to-Know Regulations (40 CFR 350-372)
- ☐ 6. Underground Storage Tank Regulations (40 CFR 280-282)

*Other (you must list these if applicable)*

- ☒ 7. Federal, State, tribal, or local regulations not listed above.  
Maine Waste Oil Management Rules
- ☐ 8. ID Numbers (specify whether State or Federal).  
N/A

## Solid Waste Management

*Check all that apply.*

- ☐ 1. Criteria for Classification of Solid Waste Disposal Facilities and Practices (40 CFR 257)
- ☐ 2. Permit Requirements for Solid Waste Disposal Facilities
- ☐ 3. Installation of Systems of Refuse Disposal
- ☐ 4. Solid Waste Storage and Removal Requirements
- ☐ 5. Disposal Requirements for Special Wastes

*Other (you must list these if applicable)*

- ☐ 6. Federal, State, tribal, or local regulations not listed above.
- ☐ 7. ID Numbers (specify whether State or Federal).  
N/A

## Water Pollution Control Requirements

Check all that apply.

- ☒ 1. Oil Spill Prevention Control and Countermeasures (SPCC) (40 CFR 112)
- ☒ 2. Designation of Hazardous Substances (40 CFR 116)
- ☒ 3. Determination of Reportable Quantities for Hazardous Substances (40 CFR 117)
- ☒ 4. NPDES Permit Requirements (40 CFR 122)
- ☒ 5. Toxic Pollutant Effluent Standards (40 CFR 129)
- ☒ 6. General Pretreatment Regulations for Existing and New Sources (40 CFR 403)  
Name of POTW City of South Portland Pollution Abatement Department  
ID # of POTW 0100633 (EPA)
- ☐ 7. Organic Chemicals Manufacturing Point Source Effluent Guidelines and Standards (40 CFR 414)
- ☐ 8. Inorganic Chemicals Manufacturing Point Source Effluent Guidelines and Standards (40 CFR 415)
- ☐ 9. Plastics and Synthetics Point Source Effluent Guidelines and Standards (40 CFR 416)
- ☐ 10. Water Quality Standards
- ☐ 11. Effluent Limitations for Direct Dischargers
- ☒ 12. Permit Monitoring/Reporting Requirements
- ☐ 13. Classifications and Certifications of Operators and Superintendents of Industrial Wastewater Plants
- ☐ 14. Collection, Handling, and Processing of Sewage Sludge
- ☒ 15. Oil Discharge Containment, Control and Cleanup
- ☒ 16. Standards Applicable to Indirect Discharges (Pretreatment)

Other (you must list these if applicable)

- ☒ 17. Federal, State, tribal, or local regulations not listed above.  
Chapter 29, Sewer Pretreatment and Permits, Code of Ordinances of the City of South Portland, Maine
- ☒ 18. ID Numbers (specify whether State or Federal).  
004 (City of South Portland)

## Drinking Water Regulations

*Check all that apply.*

- ☐ 1. Underground Injection and Control Regulations, Criteria and Standards (40 CFR 144, 146)
- ☐ 2. National Primary Drinking Water Standards (40 CFR 141)
- ☐ 3. Community Water Systems, Monitoring and Reporting Requirements (40 CFR 141)
- ☐ 4. Permit Requirements for Appropriation/Use of Water from Surface or Subsurface Sources
- ☐ 5. Underground Injection Control Requirements
- ☐ 6. Monitoring, Reporting and Record keeping Requirements for Community Water Systems

*Other (you must list these if applicable)*

- ☐ 7. Federal, State, tribal, or local regulations not listed above.
- ☐ 8. ID Numbers (specify whether State or Federal).  
N/A

## Toxic Substances

*Check all that apply.*

- ☐ 1. Manufacture and Import of Chemicals, Record-keeping and Reporting Requirements (40 CFR 704)
- ☐ 2. Import and Export of Chemicals (40 CFR 707)
- ☒ 3. Chemical Substances Inventory Reporting Requirements (40 CFR 710)
- ☒ 4. Chemical Information Rules (40 CFR 712)
- ☐ 5. Health and Safety Data Reporting (40 CFR 716)
- ☐ 6. Pre-Manufacture Notifications (40 CFR 720)
- ☒ 7. PCB Distribution Use, Storage and Disposal (40 CFR 761)
- ☐ 8. Regulations on Use of Fully Halogenated Chlorofluoroalkanes (40 CFR 762)
- ☐ 9. Storage and Disposal of Waste Material Containing TCDD (40 CFR 775)

*Other (you must list these if applicable)*

- ☐ 10. Federal, State, tribal, or local regulations not listed above.
- ☐ 11. ID Numbers (specify whether State or Federal).  
N/A

## Pesticide Regulations

Check all that apply.

- ☐ 1. FIFRA Pesticide Use Classification (40 CFR 162)
- ☐ 2. Procedures Storage and Disposal of Pesticides and Containers (40 CFR 165)
- ☐ 3. Certification of Pesticide Applications (40 CFR 171)
- ☐ 4. Pesticide Licensing Requirements
- ☐ 5. Labeling of Pesticides
- ☐ 6. Pesticide Sales, Permits, Records, Application and Disposal Requirements
- ☐ 7. Disposal of Pesticide Containers
- ☐ 8. Restricted Use and Prohibited Pesticides

Other (you must list these if applicable)

- ☐ 9. Federal, State, tribal, or local regulations not listed above.
- ☐ 10. ID Numbers (specify whether State or Federal).  
N/A

## Environmental Clean-Up, Restoration, Corrective Action

- ☐ 1. Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA or Superfund). Please identify and include date of Record of Decision.
- ☐ 2. RCRA Corrective Action. Please provide date of RCRA/HSWA permits that require corrective action.
- ☐ 3. Other Federal, State, tribal, or local environmental clean-up, restoration, corrective action regulations not listed above. Please include date of requirement.

N/A

**Facility Name** Fairchild Semiconductor Corporation

**Facility Location:** 333 Western Avenue, South Portland, ME 04106

The National Environmental Performance Track is a U.S. Environmental Protection Agency program. Please direct inquiries to 1-888-339-PTRK (7875) or e-mail [ptrack@indecon.com](mailto:ptrack@indecon.com).

(617) 354-0463.

If you cannot e-mail the application, mail a hard copy of the entire completed application to:

The Performance Track Information Center  
c/o Industrial Economics Incorporated  
2067 Massachusetts Avenue  
Cambridge, MA 02140

## Paperwork Reduction Act Notice

The public reporting and recordkeeping burden for this collection of information is estimated to average 40 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the Director, Collection Strategies Division, U.S. Environmental Protection Agency (2822), 1200 Pennsylvania Ave., NW, Washington, D.C. 20460. Include the OMB control number in any correspondence. Do not send the completed form to this address.
